

FROM MANUAL AD HOC TO CONNECTED PLANNING:

How Harkins Transformed Resource Management

A Revolutionary Approach to Project Planning

The Hurdle Holding Them Back

- ✓ Staffing relied on spreadsheets and recurring meetings.
- ✓ Project and employee data lived in separate systems.
- ✓ Balancing skills, workloads, and commute times was slow and manual.

The Solution Provided

- ✓ TeamWeave centralized staffing and project data in one system.
- ✓ Live integrations provided real-time utilization and commute insights.
- ✓ Simple scheduling and dashboards improved visibility and forecasting.

The Impact on Business and Growth

- ✓ Manual updates were eliminated, saving hours each week.
- ✓ Real-time data enabled faster, more confident staffing decisions.
- ✓ Commute-aware planning improved balance and retention.

“For any construction company looking to streamline staffing, improve forecasting, and create a more efficient workforce planning process, I highly recommend TeamWeave.
