

rand* Cuts Planning Time, Gains 1-2 Year Forecasting With TeamWeave

RESOURCE PLANNING, BUILT FOR CONTRACTORS

The Hurdle Holding Them Back

Before TeamWeave, rand* construction struggled with slow, manual processes that limited visibility and delayed staffing decisions:

- ✓ Weekly meetings depended on manually updated spreadsheets and notes
- ✓ Project and personnel information lived in separate systems, creating a single bottleneck
- ✓ Existing tools lacked clean integration and usable resource views

The Solution Provided

TeamWeave unified data, improved collaboration, and automated manual reporting—giving rand* a single source of truth for staffing and planning.

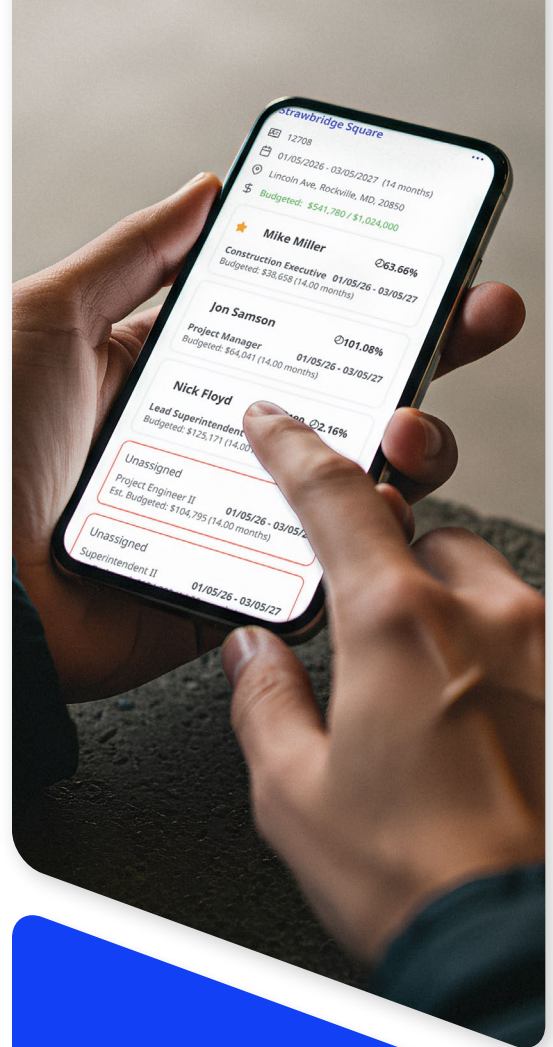

- ✓ Real-time integrations with Unanet and Procore
- ✓ Skill tagging aligns teams with project needs
- ✓ Flexible configuration adapts without costly development

The Impact on Business and Growth

rand* construction now plans faster, makes clearer staffing decisions, and saves money through automation and utilization improvements.

- ✓ 15+ hours saved weekly
- ✓ \$500–\$1,000 in weekly cost savings
- ✓ Faster, more efficient reporting replacing manual updates

TeamWeave has transformed the way we manage resources, **saving us 15+ hours per week**. The customer support is far better than anything we've experienced with other software in the industry.

— **Biju Mathew**

Director of Corporate Operations,
rand* construction corporation

Plan faster with fewer meetings.
